

# Bashir Dauda

Hello, I am an **experienced Frontend Developer** with over 5 years of expertise in Frontend development, Passionate in crafting exceptional user experiences and driving collaborative development efforts. Proficient in a wide array of frontend technologies including React, Redux, TypeScript, and AJAX, GraphQL, adept at translating designs into polished codebases. Skilled in fostering cross-functional team relationships, collaborating closely with frontend, design, and server-side development teams to deliver high quality solutions. Committed to promoting clean code practices, unit testing, and conducting thorough peer code reviews to ensure optimal performance and maintainability. Thrives in dynamic environments, eagerly embracing new challenges and technologies to continually enhance skill sets and deliver innovative solutions.

## WORK EXPERIENCE

### Calm Global Information, Lagos — *Frontend Engineer (Lead)*

Oct 2023 – Present (1 years 5 months)

- Spearheaded UI development for transformative projects like African Proverbs Software, highlighting African culture with immersive UX design.
- Enhanced healthcare workflows by optimizing KOKO Health EMR with performance-focused ReactJS and Redux solutions.
- Collaborated with multidisciplinary teams to design elegant, user-centric interfaces tailored to specific project needs.
- Revamped the Reactjs web applications for better SEO optimization, which resulted in a 20% increase in site traffic and better search engine ranking.
- Led a team of 5 frontend developers in building a React web application, resulting in a 25% increase in user engagement and a 20% reduction in load time.
- Introduced React to the front-end stack and developed reusable components along with custom-built components presented in Storybook, which led to a 25% reduction in development time and an improved UI/UX.

### Nerve Group, Lagos — *Frontend Engineer*

May 2022 – Oct 2023 (1 years 6 months)

- Improved front-end architecture by reorganizing modules, using custom-built functionalities instead of unwanted packages, leading to a 25% increase in code maintainability
- Using Nextjs to build functional, accurate, and efficient web applications
- Conducted testing on reusable components and API with Jest, ensuring seamless user experience and reducing QA team and
